

KCSE Graduate School

Application Form for Development of New Graduate Course 2009

- Contact person / responsible teacher and department (including email address and phone number):
- Course name / course code:
- ECTS credits:
- When is the course expected to be given for the first time? (year, period)
- Is the course to be given yearly, biennially etc.?
- Related, already existing courses, if any, and how the new course differs from these courses:

-
- Estimation of number of interested graduate students and their affiliations:
 - Is the course suitable for an inter-disciplinary audience? What are the prerequisites for students from other departments, and are there plans for, *e.g.*, introductory lectures/reading assignments to cover those prerequisites?

-
- **Curriculum** for the planned course (content, prerequisites, format, number of hours of lectures, amount of home assignments and/or computer exercises, tentative guest lecturers, needed computer time, etc):
Please attach a **course PM** including learning outcomes etc.
What are the computational aspects of the course?
-

- Estimated amount of working hours needed for the development of the course. Is additional funding for the course expected from other sources?
- Estimated costs for giving the course (working hours, costs for guest lecturers, boarding, etc). Relate the request to the information given under the previous headings.

-
- Other information:
-

Please send the form to Philipp Schlatter, Director of Studies KCSE, KTH Mechanics, pschlatt@mech.kth.se, Tel. 08 790 71 76.
